

Final Addendum

Project Information

Project Name: WTRF Ferric Chloride Supply

RFP Number: F25-01-002-01

Date: February 27, 2025

Project Manager: Tyler Eldridge

Addendum Questions

Question #1 **May I please get the name of your current supplier and price? And is there a bid tab available from the last bid?**

Answer

The current supplier is Treatment Technology. I do not have a bid tab to share, as we have not formally solicited this until 2025. In 2024 we purchased this product at a price per ton of \$1468.88. This is all the information that I have at this time.

Question #2 **Is this a rebid of F25-01-002 that was due on 1/31/25?**

Answer

Yes, the original IFB was cancelled due to confusing pricing request language, which resulted in bids that were not comparable.

Question #3 **Can you send the bid tab?**

Answer

A bid tab was not created, as pricing was not comparable - see answer to question 2.

Question #4 **Last bid you wanted pricing in Dry Tons but this says Gal, please confirm.**

Answer

Gallons is the correct unit of measure for this re-bid (F25-01-002-01).

Question #5 **Is it possible to send me the bid tab so I can see who bid?**

Answer

A bid tab was not created, as pricing was not comparable - see answer to question 2.
